

ER 83-6175/4

23 December 1983

MEMORANDUM FOR: Deputy Director for Science and Technology
FROM: Director of Central Intelligence
SUBJECT: Review of DS&T Activities

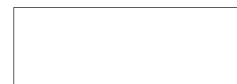

I promised our boss a review of our progress on capabilities and performance over the last three years. Could you pull together some paragraphs on what has developed in your area with examples and incidents which would give him a feel for what we've done with the support he has provided us.

e

William J. Casey
